

MTV's DOCUMENTARY SERIES CASTING
TRUE LIFE: I'M ALLERGIC TO EVERYTHING

Are you constantly wiping your eyes, blowing your nose and using your inhaler to no avail? Do you have to carefully monitor what you eat to make sure you don't have a severe allergic reaction, breakout in hives or stop breathing? Is doing an everyday thing like going out to eat or shopping a dangerous or hazardous experience? If this sounds like you, Gigantic! Productions wants to hear your story.

We want to know what your life is like. Do you have an outlet to help distract you from your allergies? Have you taken on your school to ban peanuts? Do you have a peanut sniffing dog?

If you appear to be between the ages of 15 and 22, please email casting@gigantic.tv with details. Please include your name, location, phone number, and photograph.
